### We provide:

- Computer courses for beginners
- Customized Workshops for advanced users and closed groups at client's location
- IT courses for the most demanding IT professionals
- Individual training
- Consultancy

*»With regards to the visit, customers and attendees were very impressed with the wealth of knowledge and insight provided by Rok. I am waiting for a written feedback from the client, but verbally they were impressed. He tackled all the challenges they were facing and provided them with hands-on solutions specific to their needs. This went beyond the expectations of the client. One comment from one of the developers was "I don't know if I can call myself a developer after this!" :) referring to the wealth of new things he was seeing. Thanks again for giving us Rok's services for a week. I hope to see him again in Malta soon.«*

**E.P. (June 2015)**

**If you would like to improve your knowledge, learn from the best experts.**

## Microsoft MVP for Windows Azure – Rok Bermež

*"Following the recommendation of Microsoft Slovenia, we chose Kompas Xnet for the redesign of our websites pocenielektrika.si and gen-i.si. The expertise and the performance of Kompas Xnet have surpassed our expectations. The level of experience and innovation they showed with HTML5 and CSS3 web technologies and even with Microsoft Azure platform (which was in its infancy at the time), was extremely high. Our high demands were exceeded by their experts, and handled with ease and that is why we further on entrusted them with two additional Web sites poceniplotin.si and jeftinastruja.hr, where quick responsiveness was a key factor since both pages targeted emerging markets of that time. I recommend Kompas Xnet to anyone who is looking for professionalism, responsiveness and reliability"*

**Blaž Krapež, GEN-I Ltd. , IT business solutions specialist**

All our developers are **highly qualified**, as evidenced by the number and type of certificates achieved, so development always takes place in the latest technologies and in accordance with Microsoft's standards.

Xnet group of experienced programmers will ensure you one of the following customized solution, **specially designed for your company and perfectly adapted to your work style:**

- Customized web or desktop application
- Modern websites / e-stores
- Applications for mobile devices

- **Microsoft MVP for SharePoint - Robi Vončina**
- Organizer of an annual **SharePoint days conference** in Slovenia from 2010
- Leading of the Slovenian **SharePoint Users Group**

»The European Games requires an IT infrastructure that will support the largest sporting event ever held in Azerbaijan. In order to deliver outstanding European Games, BEGOC needed an IT service provider to manage the IT infrastructure and provide technical services. Having assigned best in class specialists, Kompas Xnet have provided absolutely invaluable support to Eurodesign by making sure that business critical applications and systems like Active Directory environment, SharePoint applications and SCSM systems are properly administered throughout the life-cycle of the project. Kompas Xnet specialists have struck Eurodesign and BEGOC management by their professional attitude towards services delivery, outstanding technical skills and exceptional performance. Effective and successful service delivery for BEGOC have enabled solid platform for strategic and long-term partnership between two companies.«

**Sabir Hagverdiyev, Service Delivery Manager, Eurodesign CSC (June 2015)**
